

ASPeCt 2025 WORKSHOP

When: Tuesday 11th – Wednesday 12th February, 2025
7:00am – 9:00am ADST (Eastern) & 3:00 – 5:00pm ADST (Western)

Monday/Tue 10/11th — Tuesday/Wed 11/12th February 2025
20:00 – 22:00 UTC (Eastern) & 04:00 — 06:00 UTC (Western)

Where: Zoom (Email Marilyn & Petra for zoom details)

We look forward to see you in either session. If you cannot make both days, feel free to join as you are available.

Draft Agenda

- Welcome
- ASPeCt Implementation Plan, including How to move from observations to models? - Discussion & Acceptance
- Fill open ECR/DEI role in ASPeCt - Nominations & Appointment
- ASPeCt Task Groups - Discussion & Implementation: Group discussion around forming effective task groups, i.e., subgroups within the ASPeCt for people to connect over their ASPeCt-relevant research to build effective communities, i.e., to plan field work, observation standards or publications. Each task group will need two co-leads (ideally one being an ECR/DEI). Suggested ASPeCt Task Groups:
 1. Recent Antarctic sea-ice decline
 2. Snow on Antarctic sea ice
 3. Initiatives (i.e., Antarctica InSync, IPY-5, satellite missions, MIPs)
 4. New sea-ice technology (i.e., drones/underway observing, software)
 5. AI harvesting and analysis of Antarctic sea-ice information. Calendar for cruises for people to be aware of opportunities
 6. Others to be suggested
- ASPeCt-relevant data portals: Metadata
- ASPeCt observations templates & Best Practices: Underway and Sea-ice stations.
- Antarctic Report Cards
- ASPeCt Communications
- ASPeCt's connections with relevant partners: ASWIG and other groups, e.g., SOOS

- Next ASPeCt workshop and upcoming meetings.
- Wrap up

If you cannot attend, pls feel free to email any input, suggestion etc. to Marilyn and Petra by 10 Feb 2025. - We are especially keen to learn if there suggestions for other "ASPeCt task groups" and for people to sign up, including to co-lead a task group.

ASPeCt Science Workshop, virtual, 12-14 February 2025

The next ASPeCt Community workshop will be held online, 12-14 February 2025. There will be eastern and western hemisphere sessions each morning and evening, respectively. Individuals may chose one. Participation will be via Zoom. Register and submit suggestions [here](#).

The ASPeCt Scientific Steering Committee invites the community to actively participate discussions on the following items:

- Review & update of ASPeCt Science Implementation Plan
 - Establishment of ASPeCt Task Groups
- ASPeCt in Antarctica InSync: Community-led projects & activities
- Instrument & analysis updates
- National & data-set updates
- ASPeCt Community actions, including COP participation, upcoming meetings
- ...

We look forward to connect with you. Please express interest via the contact form on this page.
